Cemetery Code (if known): _____ Recorded by: _____ Date: _____

Name of Cemetery: _____ Alternate Names: _____

Name of Map: _____

Address/Location:

Condition of Cemetery:

Earliest Stone: _____

Additional Notes:

Instructions:

Cemetery Code Number : In some cases the town assigns a code number to the cemetery. In others, NHOGA assigns the code. If you do not know the code number of the cemetery you are surveying, leave this field blank.

Name and Alternate Name: Many cemeteries have an official name, and a more commonly known name. Others have had their name changed over time. Please note down any names by which the cemetery is or has been known.

Name of Map: NHOGA will provide you with a copy of the appropriate map. We ask that you note the cemetery's location on the map and return it to us. To get a map, please contact Trina Purcell at:
(603) 624-3754 Evenings(603) 271-2081 Days.....Tpurcell@excite.com

Condition of Cemetery: Please give us a general description of the cemetery's condition. Is it neglected or has someone been taking care of it? Is it overgrown? Are the stone in major disrepair? Is there anything unusual about its condition?

Earliest Stone: This is the earliest death date on any stone.

Notes: Please note anything else you think a researcher might want to know about this cemetery.

Are you artistic? If you have a sketch, photograph, or diagram we'd appreciate a copy for our records.
